Subject: Notice of PGE Withdrawal from the Western Resource Adequacy Program

Dear Ms. Edmonds,

Portland General Electric (PGE) appreciates the Western Power Pool's leadership and collaboration in advancing regional reliability through the Western Resource Adequacy Program (WRAP). PGE reiterates its strong commitment to resource adequacy as a fundamental principle supporting reliability, affordability, and customer confidence across the Western Interconnection.

After careful evaluation, PGE has elected to provide notice of withdrawal from WRAP prior to the October 31, 2025 deadline for committing to financially binding participation. This decision reflects continued uncertainty regarding program design, technical readiness, and alignment with evolving market structures. PGE believes these issues must be resolved to ensure the program achieves its intended benefits without introducing unnecessary risk to customers.

PGE remains committed to working collaboratively with the Western Power Pool and regional partners to strengthen WRAP. We remain a member in good standing of the WRAP in a non-binding status with all the privileges and requirements of a member.

Thank you for your partnership and continued dedication to reliability in the West.

Sincerely,

A handwritten signature in black ink that reads "Maria Pope".

Maria Pope
President & Chief Executive Officer
