Re: Notice of Withdrawal from Western Resource Adequacy Program

Calpine Energy Solutions, LLC ("Calpine Solutions") hereby provides the Western Power Pool ("WPP") with notice that Calpine Solutions elects to withdraw as a Participant in the Western Resource Adequacy Program ("WRAP") and from the Western Resource Adequacy Program Agreement between WPP and Calpine Solutions. Calpine Solutions submits this Notice of Withdrawal in advance of October 31, 2025, which WPP has communicated is the deadline by which such notice must be submitted to ensure the withdrawal is effective prior to WRAP's transition from its non-binding phase to its binding phase beginning November 1, 2027. Thus, Calpine Solutions understands that, as a result of this Notice of Withdrawal, Calpine Solutions will not be subject to binding participation in the Forward Showing or Operations Program for any Binding Seasons prior to effectiveness of its withdrawal from WRAP. Please confirm WPP's agreement in writing to the terms of this Notice of Withdrawal at your earliest convenience.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Neil Bresnan', with a long horizontal flourish extending to the right.

Neil Bresnan, Senior Vice President
